All Saints, One Me And You

Time, space all over the place Whenever youre near me Im here my feelings are clear Ive never felt so sure Youve changed the way I create III go wherever it takes me Pain, tears, lead us to here You bring me so much joy

Chorus: I dont know what you do But I stagger and fall Trip up in my shoes when Im walking with you We can fight, make up, whatever the mood Cause theres only one me and u

Here now is where I see how My feelings can taint me Cold, cool, sometimes misunderstood Thats not how I wanna be The cause of pain through all of my shame See I know youd never waste me Cos love my dear, Yes it leads us to here

I dont know what you do But I stagger and fall Trip up in my shoes when Im walking with you We can fight, make up, whatever the mood Cause theres only one me and u
