

# All Saints, One Me & You

Time, space all over the place  
Whenever you're near me  
I'm here my feelings are clear  
I've never felt so sure  
You've changed the way I create  
I'll go wherever it takes me  
Pain, tears, lead us to here  
You bring me so much joy

[Chorus:]

I don't know what you do  
But I stagger and fall  
Trip up in my shoes when I'm walking with you  
We can fight, make up, whatever the mood  
'Cause there's only one me and U

Here now is where I see how  
My feelings can taint me  
Cold, cool, sometimes misunderstood  
That's not how I wanna be  
The cause of pain through all of my shame  
See I know you'd never waste me  
Cos love my dear  
Yes it leads us to here

I don't know what you do  
But I stagger and fall  
Trip up in my shoes when I'm walking with you  
We can fight, make up, whatever the mood  
'Cause there's only one me and U

[M8]

I don't know what you do  
But I stagger and fall  
Trip up in my shoes when I'm walking with you  
We can fight, make up, whatever the mood  
'Cause there's only one me and you
