

All The Day Holiday, Cheers (You Still Love Me)

I'm swinging
On a swing that extends from the sky
I'm flying over oceans
Up and up so high
Yea, I've got a good reason to be right where I am
But you seem to think so differently
And now it's hard, its hard to
Here I am up in the air
Yea, you were right all along and I was wrong
Still you let me go all on my own
Yea, you were right all along and I was wrong
And you saw me fall
And oh, and oh how it hurts
I was running my own race and not so good at listening
Yea, you tried to tell me
Yea, I did it on my own
Look where it landed me
But still you forgive me, oh yea
There I was up in the air
Yea, you were right all along and I was wrong
Still you let me go on all on my own
Yea, you were right all along and I was wrong
Yea, yea
Taking back all what you said
But you still love me
You still love me
Never stop, never stop
But you still love me
You still love me
