

All The Day Holiday, Flowers And Fireworks

All alone we're just kids rolling down a hill
playing in the grass under a bright sun filled sky
Satellites and moving stars
and sounds of rushing cars
Flowers and Fireworks
what do we ever have to loose
you take the roots so much deeper
so the trees can grow strong
and you take the roots so much deeper
You take my fear and doubt and make me a place
to abide in
to make me feel like a child again
you take the roots so much deeper
you take the roots so much deeper
Why did I ever need to control
