

# All Together Separate, Face To Face

Seems I came to life when I heard You whisper  
You said the words 'I love you'  
Every time I think about Your grace it's clearer  
You are the one I've been searching for to complete me  
When I draw near, You always meet me  
Longing just to be together again  
With every passing day the shadows in my life fade away  
The more I see You face to face  
Tell me all Your stories from a thousand places  
Of how You made it through  
When I hear Your voice my eyes are filled with wonder  
I forget the trials and the thorns I find around my feet, yeah  
When I draw near, You always meet me  
Longing just to be together again  
With every passing day the shadows in my life fade away  
The more I see You face to face  
Someday, my dreams will soon be reality  
Someday, my dreams will be reality it seems  
Seems I came to life when I heard You whisper  
You said the words 'I love you'  
When I draw near, You always meet me  
Longing just to be together again  
With every passing day the shadows in my life fade away  
The more I see You face to face  
When I draw near, You always meet me  
Longing just to be together again  
With every passing day the shadows in my life fade away  
The more I see You face to face  
When I draw near, You always meet me  
Longing just to be together again  
With every passing day  
I want see You face to face
