Tell Me Something: The Songs Of Mose Allison

Perfect Moment

Sunset glow from a hill

Let it flow take your fill

Such a perfect moment

Mona Lisa smile

One such perfect moment

Makes it all worthwhile

Autumn night crystal clear

Mystic light seems so near

Such a perfect moment

Nothin' you can say

One such perfect moment

Get you through the day

Mountain sheen, ocean shine

Miocene valentine

One such perfect moment

Never twice the same

Such a perfect moment

Will keep you in the game
