

Allister, Radio Player

There's a broken needle scratching my 45 collection
Through a burnt out blown two speaker combination
There's nothing left to do but crank it up loud
It's pumping through my head and its knocking me out
It doesn't really matter what's going on now
'Cuz all I wanna do is

Keep the radio playing all night long,
We left the radio playing all night long
Because the radio's playing all my favorite songs

There's a broken CD player in the backseat of my car
Next to the pieces of what's left from my first guitar
There's nothing left to do but crank it up loud
It's pumping through my head and its knocking me out
It doesn't really matter what's going on now
'Cuz all I wanna do is

Keep the radio playing all night long,
We left the radio playing all night long
Because the radio's playing all my favorite songs

We left the radio playing all night long
We left the radio playing all night long
Because the radio's playing all my favorite songs

Some people say that my radio is dead
But I won't let myself believe it

We left the radio playing all night long
We left the radio playing all night long
Because the radio's playing all my favorite songs

We left the radio playing all night long
We left the radio playing all night long
Because the radio's playing all my favorite songs

We left the radio playing all night long
We left the radio playing all night long
Because the radio's playing all my favorite songs

We left the radio playing all night long
We left the radio playing all night long
We left the radio playing all my favorite songs
