

# Aloha From Hell, You

So what, I dont need that attitude  
Cant stop thinkin of you always  
Im thinkin of you always  
Wake up, cant you see Im done with you  
Wont you try to put yourself in my place  
Im thinkin of you always  
You, youre the one I love  
Youre the one I hate, left without a trace  
Youre the song, we used to sing along  
We used to have it all  
But now its much too late  
So what, Im the one who got fucked up  
So what, I dont care  
Im in love with the pain  
Im doin it again and again  
Such a bad luck  
Why you call me stupid fuck  
Why dont you try to put yourself in my place  
Im thinkin of you always  
You, youre the one I love  
Youre the one I hate, left without a trace  
Youre the song, we used to sing along  
We used to have it all  
But now its much too late  
Lovin you was never easy  
All this time you tried to hurt me  
All those years  
I know it doesnt make sense, but still its  
Hard to stop, hard to shake you off  
Wont give up, gotta let you know  
Although it hurts  
I know it doesnt make sense, but still its  
You  
You  
You  
You  
You, youre the one I love  
Youre the one I hate, left without a trace  
Youre the song, we used to sing along  
We used to have it all  
But now its much too late (Late)
