

Alpha, A Little Poison

A little poison numbs the senses
Slows the flow - slow the flow
Nothing simpler
See it's easy
Bring it on
Bring it on
I'll show you all
I'll prove you wrong, in a while
It's peculiar
Doesn't hurt me anymore, anymore
And I'll show you all
I'll prove you wrong
In a while, in a while
Watch me fly
Heights don't scare me
The sky is mine
You won't stop me
A little poison numbs the senses
Send them in, send them in
Yes I'll show you all
And prove you wrong
In a while, in a while
Watch me fly
Heights don't scare me
The sky is mine
You won't stop me
As i show you all
And prove you wrong
In a while, in a while
