

# Alpha, Clear Sky

So some say somehow  
Who was high stays down  
I don't think you understand me  
I don't see your fault lies  
I just wanna talk for now

And though the way I struggle  
It grab and take hold of me  
Always the one  
And always enough to be  
The ultrasound strike in the sea  
Let me open  
That I'll crash sometime  
I'm lucky for now

Stir me round  
He's spawned a war  
So run from him  
It's something in his blood  
It's all because of a rushing heart  
Of course, he's made a plan  
His sailor wants clear sky

Droop just now  
Has the face of calm  
And you're on top of the world  
The planet didn't know  
That Earth will forever be forgot

Until you dared know  
Someone will win to better things  
No one told me  
I'm glad you're told  
I don't strike alot  
And say only  
Your moment here  
Is slowing up
