

# Alpha, Still

Could you ever  
And ever  
Could you  
Perceive me  
Completely  
As I should be

You don't even know me  
You don't even care

Why thought that I  
Gave me name  
Still I lie  
Concealing  
My mood

You don't even know me  
You don't even care

Could you ever  
Make her way  
Make her stay  
With you

Oh can you  
Butterfly on my head
