

Alpinestars, Burning Up

Burning Up lyrics

The lights in all the cities have now gone
Restless hearts and minds are moving on
Baby take the best escape for all
Don't know if I'm coming back for more

Burning up again
I found my only friend
Burning up again
I found my only friend

Got to feel inside the orange sun
No hold on the borders till it's fun.
Race to please you if you start to roll,
Vanity and time will rape my soul.

Burning up again
I found my only friend
Burning up again
I found my only friend

Burning up again
I found my only friend
Burning up again
I found my only friend
