

Alpinestars, Crystalnight

(Crystalnight)

When we walked in the sun
And we spoke with our eyes
Knowing what was to come
In the season of ice

When we walked in the sun
And talked in the sun
And we knew everything
When we lived in a time
That's eluded us now
We try hard to return
But nobody knows how
When we lived in a time
And loved in a time
And we had everything

(Crystalnight)

Mmh, and we knew everything

(Crystalnight)

Now the tables have turned
And the seasons have passed
We have wasted our lives
And strayed from the path

That we walked in the sun
When we talked in the sun
And we had everything
When we walked in the sun
And we spoke with our eyes
Knowing what was to come
In the season of ice
When we walked in the sun
And talked in the sun
And we knew everything
Mmh, and we knew everything
Now haven't you heard, haven't you heard?

(Crystalnight)

We're a part of the night
Now haven't you heard, haven't you heard?

(Crystalnight)

We're a part of the night
Now haven't you heard, haven't you heard?
We're a part of the night
