

Alter Bridge, Isolation

When all is lost to you inside
When all the darkness takes the light
The ritual it has begun
Now you tear away from everyone
Disconnected so alone
Severed ties from all you know
Isolation
Brings you to the end
Until you love again
Isolation
If you could only see
What will come to be
Justified you waste away
You'd dare to dream but still you're too afraid
Now you're broken and deceived
Lost to live this cruel reality
You're disconnected so alone
Severed ties from all you know
Isolation
Brings you to the end
Until you love again
Isolation
If you could only see
What will come to be
Maybe you'll stand
Maybe you'll give
And break to find another way
And make things better
Maybe you'll find
A life you can live
And learn to love along the way
And make things better
Isolation
Brings you to the end
Until you love again
Isolation
If you could only see
What will come to be
Isolation
Brings you to the end
Until you love again
Isolation
If you could only see
What will come to be
You're disconnected so alone
What will come to be
You're disconnected so alone
