

# Alter Bridge, The Damage Done

I won't waste away  
I won't let this take me down  
I can survive as long as  
I keep it around  
I wish it would fade  
But it will just sell me out  
Over and over and over  
I cry out loud

Somebody save me  
Somebody save me

The race I run  
It keeps me further from  
The man I could become  
The damage done  
I want to wash the filth  
Away til there is none

How long til I break  
From the weight of what's killing me?  
Profuse to the day  
Ill suffer afraid to speak  
I carry the shame  
And beg for the remedy  
How long must I live  
With the damage of my disease?

Somebody save me  
Somebody save me

The race I run  
It keeps me further from  
The man I could become  
The damage done  
I want to wash the filth  
Away til there is none

-Solo-

The race I run  
It keeps me further from  
The man I could become  
The damage done  
I want to wash the filth  
Away til there is none
