

# Alter Bridge, Wonderful Life

Close your eyes  
And just hear me sing  
One last long goodbye  
One last song before you spread your wings  
There's so much left to say  
Before this, moment slips away  
What a wonderful life  
For as long as you've been at my side  
And I want you to know  
I loved you so  
The cold night calls  
And the tears fall like rain  
It's so hard letting go  
Of the one thing I'll never replace  
And soon you will be gone  
But these words they will live on  
What a wonderful life  
For as long as you've been at my side  
And I want you to know  
I'll miss you so  
And though our days come to an end  
Know I'll never love like this again  
What a wonderful life... my friend  
And all that I am  
You let me be  
I will remember you  
For all that you've done  
And given to me  
Love will remain  
This I concede  
Now and forevermore  
Because of you  
Now I believe  
I believe  
What a wonderful life  
For as long as you've been at my side  
And I want you to know  
I've loved you so  
What a wonderful life  
For as long as you've been at my side  
And I want you to know  
I'll miss you so  
And though our days come to an end  
Know I'll never love like this again  
What a wonderful life...  
A wonderful life  
What a wonderful life  
A wonderful life  
And with one last embrace  
As the tears fall like rain  
You're gone  
And with one last goodbye  
As you fade out tonight  
You're gone
