deal with it

By: Amanda Benedit
Just go away
Get out of my face
Ive had enough of you today
Im gonna disappear, without a trace
I hate you more than anything
Hate is something I strive
Things dont get better
And parents dont stop ruining our lives
Obviously I wasnt blessed with good luck
But in way everyones life sucks
Some people put their problems to the side
But not me, not this time

Chorus

You gotta just deal with it
Dont try ignoring it
Tell them how you really feel
Its time to stand up for yourself
Break open the seal

End chorus

I know im not the only one with problems
Even though you fail to realize that
Everyone has some, time to solve them
No lies, its a fact
Ive been caught so many times
Too many to mention
I do because im stupid, not just to kill time
No way in hell, I do it for affection
Been listening to you talk all day
Its amazing how much shit you have to say
I get mad, but keep it in
Its time to deal with it

Chorus x1

I have never had so much hate in my life
It will stay, till youre out of my site
Im not your little girl anymore
Im old enough to hate, and I hate you, thats for sure
Im breaking out of my shell
Its not like the past
Where youd pick me up Everytime I fell
Its ture, life comes at you fast
You act like the suns gonna shine
Everytime you say things will be fine
Instead of following orders
I think Ill cross the border
And deal with it!
