## Amanda Jenssen, Do you love me

Truth be told, simple and bold

I think you're special

We can roll like a team, you know what I mean

See, I'm not gonna mess around and I'm not gonna let you down

cause I do love you

This I know, this I kno -oh -ooow!

Money makes the world go 'round

People will be people always

Baby, what goes up comes down

This I know, so here I go

Do you love me

love me

Do you love me

love me

Do you love me

baby

Hit or miss, here's what it is you are that someone

a diamond in the rough, the real stuff

Now if goodness are to find,

then luck is a friend of mine, cause I do love you

This I know, this I kno -oh -ooow!

Money makes the world go 'round

People will be people always

Baby, what goes up comes down

This I know, so here I go

Do you love me

love me

Do you love me

love me

Do you love me

baby

Money makes the world go 'round

People will be people always

Baby, what goes up comes down

This I know, so here I go

Do you love me

love me

Do you love me

love me

Do you love me

lové me

Do you love me

Do you love me
