

# Amanda Jenssen, Happyland

Poison my sight while you kiss me goodnight  
In the happyland  
Go on and poison my sight while you kiss me goodnight  
In the happyland  
Well your daddy left home  
Mum is still on the phone  
Lost belief in  
Love's deceiving  
Always going, went, gone  
Poison my sight while you kiss me goodnight  
In the happyland  
Close the door and leave your key  
You think you've got me but you'll see  
When you're starting to lose me  
I'm already gone  
Night lingers on, we'll be safe until dawn  
In the happyland  
As the night lingers on, we'll be safe until dawn  
In the happyland  
Cause your daddy left home  
Mum is still on the phone  
Lost belief in  
Love's deceiving  
Always going, went, gone  
Night lingers on, we'll be safe until dawn  
In the happyland  
Close the door and leave your key  
You think you've got me but you'll see  
When you're starting to lose me  
I'm already gone  
They will hurt you  
And desert you  
That's what they do  
Run
