

# Amanda Stott, Song On The Radio

Real life is just a little too real tonight  
Think I'm gonna hop a jet plane  
Go where things work out right  
Some place far away from here  
I wish life could be  
Like a song on the radio  
Everything just peace and love and stuff like that  
I wish life could be like a song on the radio  
You just turn it on and turn it up yeah  
Laundry mats, stoplights and taxicabs  
Think I'm gonna hop a freight train  
Find out where it's at  
Some place far away from here  
I wish life could be  
Like a song on the radio  
Everything just peace and love and stuff like that  
I wish life could be like a song on the radio  
You just turn it on and turn it up yeah  
When life doesn't go my way  
All I got to do is  
Pull out my favourite song and I drift away  
Some place far away from here  
I wish life could be  
Like a song on the radio  
Everything just peace and love and stuff like that  
I wish life could be like a song on the radio  
You just turn it on and turn it up  
I wish life could be  
Like a song on the radio  
Everything just peace and love and stuff like that  
I wish life could be like a song on the radio  
You just turn it on and turn it up yeah  
Turn it up yeah (turn it up, turn it up yeah yeah yeah yeah)  
Turn it up, turn it up yeah (turn it up, turn it up yeah yeah yeah yeah)  
I wish life could be (yeah yeah yeah yeah)
