

# Amanda Stott, Waiting For My Star To Fall

Am I holding out for a dream  
Is this a little girl fantasy  
Is there somebody only for me  
How will I know when it's you?  
Wish I, I could just have a clue  
Wanting too good to be true  
Anticipating it's time  
I see worlds go round, my heart pounds  
When will I be found?  
I, I know you'll call through it all  
Waiting for my star to fall  
Have we met or are you unseen  
Will you believe that we are meant to be  
Won't you come into my reality  
Will I find the right words to say  
Would it make a difference anyway  
What if you're only a day away?  
Anticipating it's time  
I see worlds go round, my heart pounds  
When will I be found?  
I, I know you'll call through it all  
Waiting for my star to fall  
Rain falls, the sun rises, life passes by  
I wish upon a star that you'll be mine  
I see worlds go round, my heart pounds  
When will I be found?  
I, I know you'll call through it all  
Waiting for my star to fall  
I see worlds go round, my heart pounds  
When will I be found?  
I, I know you'll call through it all  
Waiting for my star to fall  
Waiting for my star, waiting for my star to fall, waiting for my star to fall  
You'll come, yeah  
Waiting for my star to fall
