

# Amaranthe, Find Life

The air is purified  
I step on solemn ground  
But it is not enough, no  
'Cause not yet satisfied  
'Till I see that flash in your eyes  
Reversed indifference

And you can not deny  
What I have sacrificed  
An unsuspecting side of you  
A blackened paradise  
Feel the corruption rise  
A billion souls adrift  
But life can save us

Come and you'll find  
The temptation of human desire  
Rise high  
Come find life

I tried with all my might  
Crossed to the other side  
Suspended disbelief, oh  
A resurrection of  
Of the principles of what's right  
A jester's theory

And so I have denied  
Disrupted paradise  
I taste the serpents bite in you  
A madman prophesied  
Apocalyptic skies  
A billion souls adrift  
But life can save us

Come and you'll find  
The temptation of human desire  
Rise high  
Come find life

Life can save us  
Life can save us

Come and you'll find  
The temptation of human desire  
Rise high  
Come find life

Come intertwine  
Consecration, I thrive in the fire  
Rise high  
Come find life
