

Amberian Dawn, My Only Star

After a day turns into a night
I will light up my light in the sky
Don't shed a tear on the ground I once laid
Cause I'll be here
From your tears I'll make a crystal necklace
To surround my heart and my chest
I'll be up here and walk by your side
Day and night

[Refrain:]

Look at me
Me here among the stars
Walking on milky way
Part of the eternity
Shining bright in the dark blue sky
Shining your love - my light
Waiting for you to shine by my side
Look, I am a star
Meet me in dreamland
Come, take my hand
I will guide your way
Don't be afraid
Hold me in your arms never let go
And be my own
Just for tonight I'll be in your dreams
Then I'll exist only in star streams
Remember me when you look at the sky
As time goes by

[Refrain:]

Look at me
Me here among the stars
Walking on milky way
Part of the eternity
Shining bright in the dark blue sky
Shining your love - my light
Waiting for you to shine by my side
Look, I am a star
