

Amberlife, In Your Eyes

There's a fire that burns in my heart
And it feels like I'm melting apart
Cause when we touch ... I feel so alive!
Come on Babe, hold me now, and you'll see
I can be what you want me to be
Cause it's true ... I've fallen for you

In your eyes ... I see your love
And I can't hold back ... I can't get enough
In your eyes, I feel your love
Can you feel it too the same way I do?

Follow me and we'll ride on the moon
Hold on tight and we'll be there real soon
It's so true, I'm drowning in you ... la-la-la-la-la
Take me up, turn me round, make me feel
That the look in your eyes is for real
Tell me now, you're feeling it too

In your eyes ... I see your love
And I can't hold back ... I can't get enough
In your eyes, I feel your love
Can you feel it too the same way I do?

Babe, it just can't be wrong
Feelings like this
Are too strong
Stay with me
We're meant to be!

(Eyes)

And I can't hold back ... I can't get enough
In your eyes, I feel your love
Can you feel it too the same way I do?
