## Ambrosia, How Can You Love Me

(pack - puerta)

Babe, it took a long, long time to get it out this way Now, that the hurtin's over all I've got to say (is) that I know Sure as I am living It takes more than forgiving 'cause it ain't been easy I know you did your best to please me

How can you love me, After all the years we've tried After all the tears you've cried After our love has died

Babe, I've seen some pretty faces everywhere I go I say now Maybe I ain't the same person that you used to know

But I know In my heart I'm livin' For the love you've given And the foolish thing about it Is that I thought I'd live without it

How can you love me When you know I've been with someone else And I ain't too happy with myself But I keep on comin' back around

Ooh, sometimes it feels like I'm gone forever (I'm gone forever) Ooh, it gets so hard to wait (it gets hard to wait) Ooh, we're far away and it ain't gettin' better Well, I know that somethin' is surely wrong When I feel this way, well I can't go on and on
