

# Amebix, Time Bomb

Took me some time to understand the man  
He is a fist in the back of my brain  
Don't you know we're doing all that we can  
The look in his eyes is no look of the sane

(Chorus:)

He is..... a timebomb

Transmit! The signal screams  
Tearing the soul apart  
Putting an end to dreams  
Sewage drips from the foetid heart  
When will he understand?  
That he has blown my head  
That I am crushed  
That he is dead
