Amen, Freak Down

Right on down the line I'm working all the time I got the 9 to 5 Blues back baby on genocide

Got no time For conversation Planet lies In hesitation Days have Gone by My days have all Faded away

I got no time to stand in line One decision and to stick & ride Run the crime run the crime On time yeah

In my house I live alone In my world I live alone Days have Gone by My days have All faded away I could have been I had a chance I'm looking back At my past It's too late For me now Hey freak Take back Turn it down
