

# American Hi-Fi, Baby Come Home

I understand your point of view  
So what do I say  
I've been so underwhelmed before  
You've got a lot to prove  
Somewhere lines get crossed it's true  
It's the nature of things  
The longer we can see it through  
The more we make believe  
Baby likes a blue sky  
I don't mind if it's gonna rain on me sometime  
Maybe got her mind made up for sure  
Baby won't you come back home?

All the people that we love  
Disappoint us the most  
Makeshift friends and low demands  
We're running outta time

My late night call  
One way to fall  
I miss you still
