

American Hi-Fi, Built For Speed

Shes on fire like a rocket spinning out of control
Try to stop her but you just dont know
How to keep it inside
Can you keep on turning out
Ill wait for my turn
Same old story coz you never learn
Gotta make it in time

She dont know what she does to me
The girl got soul and rhythm in between
I crash and burn like every other time
Shes my little rock n roll queen
I got a girl like that
My babys built for speed

Shoot to kill built to spill
Got a mind take your pills
But your never gonna get to what thrills
All of us inside
Can you put the pedal to the metal this time
You gotta want it like I want it alright
We gotta start tonight

She dont know what she does to me
The girl got soul and rhythm in between
I crash and burn like every other time
Shes my little rock n roll queen
I got a girl like that
My babys built for speed

Shes on fire like a rocket spinning out of control
Try to stop her but you just dont know
How to keep it inside

She dont know what she does to me
The girl got soul and rhythm in between
I crash and burn like every other time
Shes my little rock n roll queen
I got a girl like that
My babys built for speed

I got a girl like that
My babys built for speed

Yeah my babys built for speed [x2]
