

# American Hi-Fi, Built For Speed

Shes on fire like a rocket spinning out of control  
Try to stop her but you just dontknow  
How to keep it inside  
Can you keep on turning out  
Ill wait for my turn  
Same old story coz you never learn  
Gotta make it in time

She dont know what she does to me  
The girl got soul and rhythm in between  
I crash and burn like every other time  
Shes my little rock n roll queen  
I got a girl like that  
My babys built for speed

Shoot to kill built to spill  
Got a mind take your pills  
But your never gonna get to what thrills  
All of us inside  
Can you put the pedal to the metal this time  
You gotta want it like I want it alright  
We gotta start tonight

She dont know what she does to me  
The girl got soul and rhythm in between  
I crash and burn like every other time  
Shes my little rock n roll queen  
I got a girl like that  
My babys built for speed

Shes on fire like a rocket spinning out of control  
Try to stop her but you just dontknow  
How to keep it inside

She dont know what she does to me  
The girl got soul and rhythm in between  
I crash and burn like every other time  
Shes my little rock n roll queen  
I got a girl like that  
My babys built for speed

I got a girl like that  
My babys built for speed

Yeah my babys built for speed [x2]
