

American Hi-Fi, What About Today

it's getting hard
but you don't even know
maybe you can't see
i'm getting tired
i've been still
i'll panic on

[chorus:]
hearts are sinkin' blind
yeah well you don't even know
all you gotta do
just stop and ask me
silver, chrome and steel
set the tone and set me out
it's everything you want
complete the failure

no more to say
what about today
what's really going on
and between the blind
and blood shot eyes
i'd thought i'd see my way
see my way

[repeat chorus]

yeah you're getting awfully close
yeah you're getting awfully close

[repeat chorus]

complete the failure
complete the failure
