

# American Idol, Come On In Out Of The Rain

AMERICAN IDOL

You said you believed that we'd  
find love together happily  
after all the wrong I've done  
you feel that I'm still the one  
to give your loving to  
so bring it home to you

You told me, that you'd love me  
if I'd ever change  
welcome me into your arms again  
come on in out of the rain (hey)  
there's a place in your heart to love me again  
happiness and joy you bring  
when you call my name  
come on in out of the rain

I loved no one but you  
but I strayed, I know I made you blue  
you spoke into my very soul  
you warmed my heart that once was cold  
now I'm so glad I know (yeah yeah yeah)

Some people spend a lifetime looking for love  
and I had love right here all the time  
why did I try to deny it  
deep inside I just couldn't fight it  
you turned my life around  
the love I lost is found  
so let the rain come down
