

American Juniors, One Step Closer

(Lucy)

I've been waiting, such a long time
Just trying to get through
And it's taking, all of my strength
To keep me here away from you

(Chauncey)

It doesn't matter just how long it takes
Nothing changes when we're apart

(Thompson's Sisters)

It's just a little bit longer we've come this far

(All five)

One step closer to heaven, baby
Means one step closer to you
There'll be no more living without you, baby
I'm counting each minute 'till I'm back to you
One step closer to heaven, baby
Hold on, hold on, hold on to my lovin'

(Danielle)

I've been saving
Every little bit of my love for you
I've been dreaming,
Just to get by
It's so exciting, fantasizing

(Chauncey)

It doesn't matter just how long it takes
Just to now we'll be back together

(Thompson's Sisters)

And this time, it's forever

(All five)

One step closer to heaven, baby
Means one step closer to you
There'll be no more living without you, baby
I'm counting each minute 'till I'm back to you
One step closer to heaven, baby
Hold on, hold on, hold on to my lovin'
