

American Juniors, You Are The One

Have you ever had a friend
Who never let you down
Right by your side
every night and day
Always hear you
when your calling
Catch you when you're falling
Have somebody show you the way

BRIDGE

It's OK
Now I know
There is a love for everyone
I will go on with you here
By my side

CHORUS

You are the one I wanna love
You are the one I'm dreaming of
Whenever I'm down
and feeling lonely
You are there to hold me
With you all my troubles are gone
You are the one I wanna love
You are the one i'm dreaming of
Whenever i'm down
and feeling lonely
You are there to hold me
With you all my troubles
are gone
In one

Have you ever had a
dream or a fantasy
Do you believe that love
will come your way
Always there to see you smiling
Hold you when you're crying
Tell you everything is alright
