

# American Music Club, Now You're Defeated

American Music Club

California

Now You're Defeated

I thought there was more life than finishing a dream

I thought gravity helped you to dance

But it just makes you sink

I stand in the way of people who stopped caring

Numb hands and feet and ears long past hearing

They sing now you're defeated baby

Fall on your face in the divine way

Don't worry about anything, no

It's just the world having its little way

Justice ain't going to be yours tonight

You got a pure bright soul but heaven don't need it

Sit on your hands and talk to the friend you never had

Angels laugh with joy and they make you scream

At the strong open crowd, want the great fight

Push up against you and then sustain the right

Now you're defeated baby

World revolves around you

Now you're defeated baby

I really showed you

Now you're defeated baby

Now that you're too big to hold

Now you're defeated baby

You're worth more to me than gold
