

American Pearl, If We Were Kings (Radio Version)

Wait, fyou could only wait for me, I'd come around.
And take, whatever light you'd shed then we, might come around.
Come what may, if we were kings for a day could we, would we.
Light the way, and the pain I'll take away, could it be (yeah).

How long, I say not long.

Light all of their torches so they could see
and we'd carry their crosses if we were kings.

Straight, if you can just stay straight with me, I'd stay around.
Troubled fate, I can be your saving grace, lost and found
Come what may, if we were kings for the day, could we, would we.
Fly away, if we were kings for a day could we, guarantee (yeah).

How long, I say not long.

Light all of their torches so they could see
and we'd carry their crosses if we were kings.
Give away the moon and the stars for free
we'd carry their crosses if we were kings.

How long, I say not long.
I say not long.

Light all of their torches so they could see
we'd carry their crosses if we were kings.
We'd light up the sky when we were free
we'd carry their crosses, if we were kings

If you could only wait for me, I'd come around
