

American Pie 2 Soundtrack, Every Time I Look For

Never found out why you left him
But this answer begs a question
Too blind to see tomorrow
Too broke to beg or borrow
Young and stupid, left wide open
Hearts are wasted, lives are broken
One more point of contention
I need some intervention
Approached with vague intentions
Betray my short attention span
The distance, bridge the border
Beg forgiveness, round the corner
Every time, I look for you the sun goes down
And I stumble when this whole thing runs aground
I left another message, you are never around
But every time, I look for you the sun goes down once more
Will the last one out, please shut the door
More time apart will give you
A few more months to argue
Is this too much to live through
It always seems so far to drive
The point home, send more letters
Pray tomorrow, ends up better
Every time, I look for you the sun goes down
And I stumble when this whole thing runs aground
I left another message, you are never around
But every time, I look for you the sun goes down once more
Will the last one out, please shut the door
I never did do anything that she asked
I never let what happened, stay in the past
I never did quite understand what she meant
In spite of everything, in spite of everything
Every time, I look for you the sun goes down
And I stumble when this whole thing runs aground
I left another message, you are never around
But every time, I look for you the sun goes down
And I stumble when this whole thing runs aground
I left another message, you are never around
But every time, I look for you the sun goes down
