

# Amiel, Side By Side

You're eyes are screaming in the dark  
and i have reason to worry  
no we're not yet apart  
something else has faded away  
side by side

Is that all i've got to lose  
now i'm getting higher  
get on you  
everywhere i'm going  
just a little long  
after you leave  
the sun has gone away  
and i don't like  
that i need you  
at least now i know  
what i got to do  
i'm going just a little long  
i'm going just a little long

Check check checking in the moonlight  
it's so cold where we go  
and so hard tonight  
where is the love life  
side by side  
cos you're all i've got to lose  
and now i'm getting higher  
get on you  
everywhere i'm going  
just a little long  
after you leave  
the sun has gone away  
and i don't like  
that i need you  
at least now i know  
what i've got to do  
i'm going just a little long  
i'm going just a little long  
i'm going just a little long  
take away my tears

Cos you're all i've got  
cos you're all i've got

Cos you're all i've got  
side by side  
cos you're all i've got to lose  
and now i'm getting higher  
i get on you

Side by side  
cos you're all i've got to lose  
side by side
