

# Amila Zazu, Game of love

REFREN:

play the game

I like the way we tend to play the game of love

two of us

a little risk involved is what we are waiting for

play the game

I like the way we tend to play the game of love

bet your heart

play until your bet becomes all mine

when the game is on

we play this seek and hide

the game is off -

you are always on my mind

we cannot break it

we cannot fake it

cause thats the game in which there cant be any other players but us

we both know the prize

and both of us know what the games about

you can lose or you can win
