

Among The Thirsty, One Sound

VERSE 1:

Maestro,
Let the beat go,
We got your underground sound
And it's got you like an undertow.
Step back, stand by,
Count it loud (1, 2)
Write a tune that makes your head spin.
Write a song and make a remix
We got your new sound now
We gonna play it loud
We got the beat and our own trumpet boy
From six to eighty all our friends enjoy
The sound of love we bring and now we dance
We got your music now so clap your hands

CHORUS:

The music is louder now
Let's turn the world around
Let's come together now
'Cause love makes one sound
(2x)

VERSE 2 (RAP):

It's been a long time and it's still on the rise
From 8 track, tape deck, I'm in stereo, child
It's been timeless, rhyme-less, don't deny this
With a mind closed wide, man, you can't define this
Made the cage, but the heart screams free
To Make the steps, you gotta move your feet
We're gonna drop the beat, make the world scream
Pay attention and I'll show you how to talk DC
(2 Bar Instrumental Break)

CHORUS:

The music is louder now
Let's turn the world around
Let's come together now
'Cause love makes one sound
(2x)

BRIDGE:

Hey, man, music is unstoppable
There's no impossible, anymore
If one sound of a thousand voices singing out
Can turn the world around... Louder, now, louder

CHORUS:

The music is louder now
Let's turn the world around
Let's come together now
'Cause love makes one sound
(4x)
