

Amorosi Vanessa, You Were Led On

Amorosi Vanessa

The Power

You Were Led On

Face the fact.. cant you tell she don't feel the same
And I know you're just a fool that hopes to find
That she loves you like you love her .. in your dreams
To stay together and feel the same
Thats how you want it to be

Now that the feeling's gone from her face
Hang your head and walk away
'Cause there ain't no love and there never was
There's nothing she felt , you read her wrong
Oh, you were led on

When you see her , you're so out there to try
You beg on your knees, don't you have any pride
There's many other girls
That would love you for who you are
You waste your time on someone
That don't want your love

Now that the feeling's gone from her face
Hang your head and walk away
'Cause there ain't no love and there never was
There's nothing she felt , you read her wrong
Oh, you were led on , you were led on....

She said.... don't continue to follow
Walk the opposite way
Find someone else that will love you the same
Haven't you got any other things to do instead of trying
Pull yourself togther baby , stop wasting your time.

Now that the feeling's gone from her face
Hang your head and walk away
'Cause there ain't no love and there never was
There's nothing she felt , you read her wrong
Oh, you were led on.....
