

# Amorphis, Grieve Stricken Heart

Your helping hand is killing me  
If you see me suffer its not your victory  
Sadistic forms of new way discipline  
Like I love myself I love to sin

Bridge:

And I want More  
And I want it Low  
Of course you won't forgive me  
But I won't crawl

Look out for number one  
I pray on you it has begun  
Let the night stand one thousand years  
Longstanding, Everlasting  
Breathless masquerade  
I'm your devil in disguise

[bridge]

Chorus:

Grieve stricken heart  
Calls upon you  
Grieve stricken heart  
My only love you fools  
I love my misery too

[chorus]

I'm the one to see your collapse  
I'm on the side of destruction  
On the side of black and i love to sin  
Mentally transmitted disease  
Rotten wretched attraction  
And I... love myself

[bridge]

[chorus x2]
