

# Amorphis, Leaves Scar

Fate changed  
Life healed like a wound  
How does the kind of life heal  
That leaves such a scar  
I cover myself, I uncover myself

Now I know how to do things  
No longer will I listen to any talk  
Now I know and it's working  
Everything hurts inside of me

Out from the frozen lake  
She finally grew into her full might  
She grew from a tiny thing  
On this lake as I drove there to meet her

Now I know how to do things  
No longer will I listen to any talk  
Now I know and it's working  
Everything hurts inside of me

I cover, uncover, I cover myself  
I cover, uncover, I cover myself  
I cover, uncover, I cover myself  
I cover, uncover, I cover myself

Now I know how to do things  
No longer will I listen to any talk  
Now I know and it's working  
Everything hurts inside of me

Now I know how to do things  
No longer will I listen to any talk  
Now I know and it's working  
Everything hurts
