

Amy Diamond, It's my life

I'm not the girl I used to be
Opened my eyes and I began to see
This is my game, I'm in control
Proud of my name, I can't defend my soul
Better start reading my lips when I'm telling you
Come on now!
It's my life and I do what I feel right
Tell the boys that
It's my life when I walk the night
It's my life, my decision
I want you with provision
It's my life when you hold me tight
Look in my eyes, what do you see?
Love can be right if you agree with me
Don't be afraid, don't let this stop
Look at this girl, who's got her mind made up
Better start reading my lips when I'm telling you
Refren x 2
It's my life!
