

# Amy Diamond, Speed Of Light

I close my eyes and count to ten  
You say my name, I open them  
Feel like I've been here before  
Pacing the floor  
What was I thinking?

What does it mean anymore?  
I'm not even sure  
How did I get here?

I need the speed of light  
I need the speed of light  
A trip into the past  
A trip into the past

I need the speed of light  
(And then some)  
I need the speed of light  
(And then some)  
A trip into the past  
To fix the future fast

I get so lost with you around  
The more I've searched the less I've found  
But like a moth to a flame  
I'm blinded again  
What was I thinking?

Always pulling me in  
Caught in a spin  
How did I get here?

I need the speed of light  
(And then some)  
I need the speed of light  
(And then some)  
A trip into the past  
A trip into the past

I need the speed of light  
(And then some)  
I need the speed of light  
(And then some)  
A trip into the past  
To fix the future fast

This can't be life  
This can't be love  
This cannot be right  
This can't be us

This can't be life  
This can't be love  
This cannot be right  
This can't be us

(Yeah, yeah)

I need the speed of light  
(And then some)  
I need the speed of light  
(And then some)  
A trip into the past  
A trip into the past

I need the speed of light  
(And then some)  
I need the speed of light  
(And then some)  
A trip into the past  
To fix the future fast
