Amy Grant, Family

(Amy Grant)

Where have you come from Where are you going Tell me what's brought you here now Is your heart singing Then share what you're bringing

We all are a part of the show 'Cause we are all going home 'Cause we are a family and we are all going home Are you listening We are all going home so come join the family 'Cause we are all going home

But is your heart quiet Is something not right Can you tell me what's blocking the way Well just ask the Father He knows every problem He'll carry that burden away

'Cause we are all going home
'Cause we are a family and we are all going home
Are you listening
We are all going home so come join the family
'Cause we are a family and we are all going home
Yes we are all going home
