

Amy Irving, If You Want Me To Love You I Will

I just want you to know
If you want me to love you I will
I don't want to seem forward
To love you would be such a thrill
And the time that we spend together
So soon could be gone
And I know if we don't love together
I'll just love you alone
I know you don't know me
I know we just got here but still
I just want you to know
If you want me to love you I will
