

Amy Sky, Touch

Touch (Original Version)

I wanna see ya
Like no one sees you
I will watch you sleep
I wanna go where nobody else is
Baby, just you and me

You make me wanna
Touch you baby, baby
Just a little more
That's what love is for
I wanna touch you baby, baby
Like you've never been touched
You've never been touched before

Like you never been touched before

I wanna know ya
Like no one knows you
Deep, in your secret part

I wanna feel ya
Wanna feel the real you
Down, to the sweetest part

You make me wanna
Touch you baby, baby
Just a little more
That's what love is for
I wanna touch you baby, baby
Like you've never been touched
You've never been touched
You're baby, let me love you
I just want to touch
I wanna touch you baby

I wanna touch you baby
Yeah, I wanna touch you
Baby I need your touch
I want your love so much
Baby I need your touch tonight
Baby I need your touch
I want your love so much
Baby I need your touch tonight

Touch, touch you baby
Just a little more
That's what love is for
I wanna touch you baby, baby
Like you've never been touched
Just a little more
I wanna touch you baby
Just a little more
That's what love is for
I wanna touch you baby, baby
Like you've never been touched
That's what love is for

Touch
Baby I need your
Baby I need your... Touch
Baby I need your... Touch
