

# Ananya Birla, Better

10 minutes in I'm knees deep  
remind myself that I got to breathe  
been talking for hours now  
can't get you off my mind  
could stay for days  
just you and me

I wanna to stay all night  
talk the things we like  
catching fireflies with you  
give you all my time  
just to make you mine  
there's a reason why

you make me  
you make me  
you make me  
better  
you make me so much  
better  
you make me so much  
better

2 hours in you're all I see  
dreaming of everything we could be  
let's talk for days and nights  
I don't want to let you out of sight  
let's stay for years

I wanna to stay all night  
talk the things we like  
catching fireflies with you  
give you all my time  
just to make you mine  
there's a reason why

you make me  
you make me  
you make me  
better  
you make me so much  
better  
you make me so much  
better

I wanna to stay all night  
talk the things we like  
catching fireflies with you  
give you all my time  
just to make you mine  
there's a reason why

you make me  
you make me  
you make me  
better  
you make me so much  
better  
you make me so much  
better
