Anarchy Club, Collide

Playing my part in the dream Light shines through cracks in a scream

The sun, the sky
Are brighter in your eyes
We live, we die
Not knowing why
A scratch, a bite
And then a flash of light
As world's collide
It's you and I

I'm just a ghost in this shell Finding your Heaven in Hell

The sun, the sky
Are brighter in your eyes
We live, we die
Not knowing why
A scratch, a bite
And then a flash of light
As world's collide
It's you and I

Time and tide When worlds collide Tomorrow comes today

First to last When future's past Is here with me to stay

Playing my part in the dream Light shines through cracks in a scream

The sun, the sky
Are brighter in your eyes
We live, we die
Not knowing why
A scratch, a bite
And then a flash of light
As world's collide
It's you and I

The sun, the sky
Are brighter in your eyes
We live, we die
Not knowing why
A scratch, a bite
And then a flash of light
As world's collide
It's you and I
